

MPQ Board Highlights

April 2025

Morning Meeting Fun

Kids were put into a "human knot" and had to figure out how to get out of it without breaking hands.

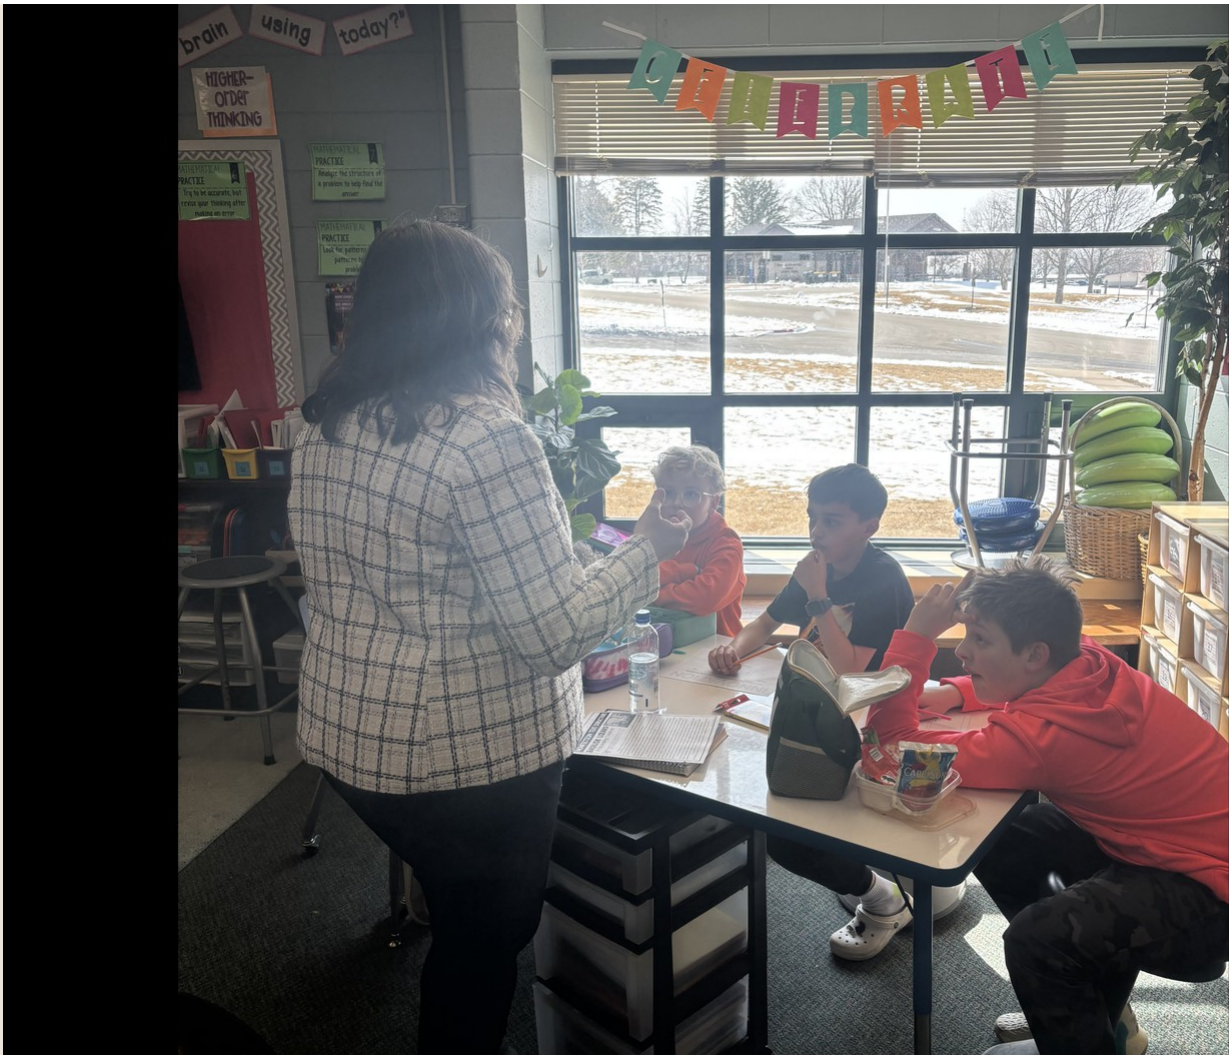

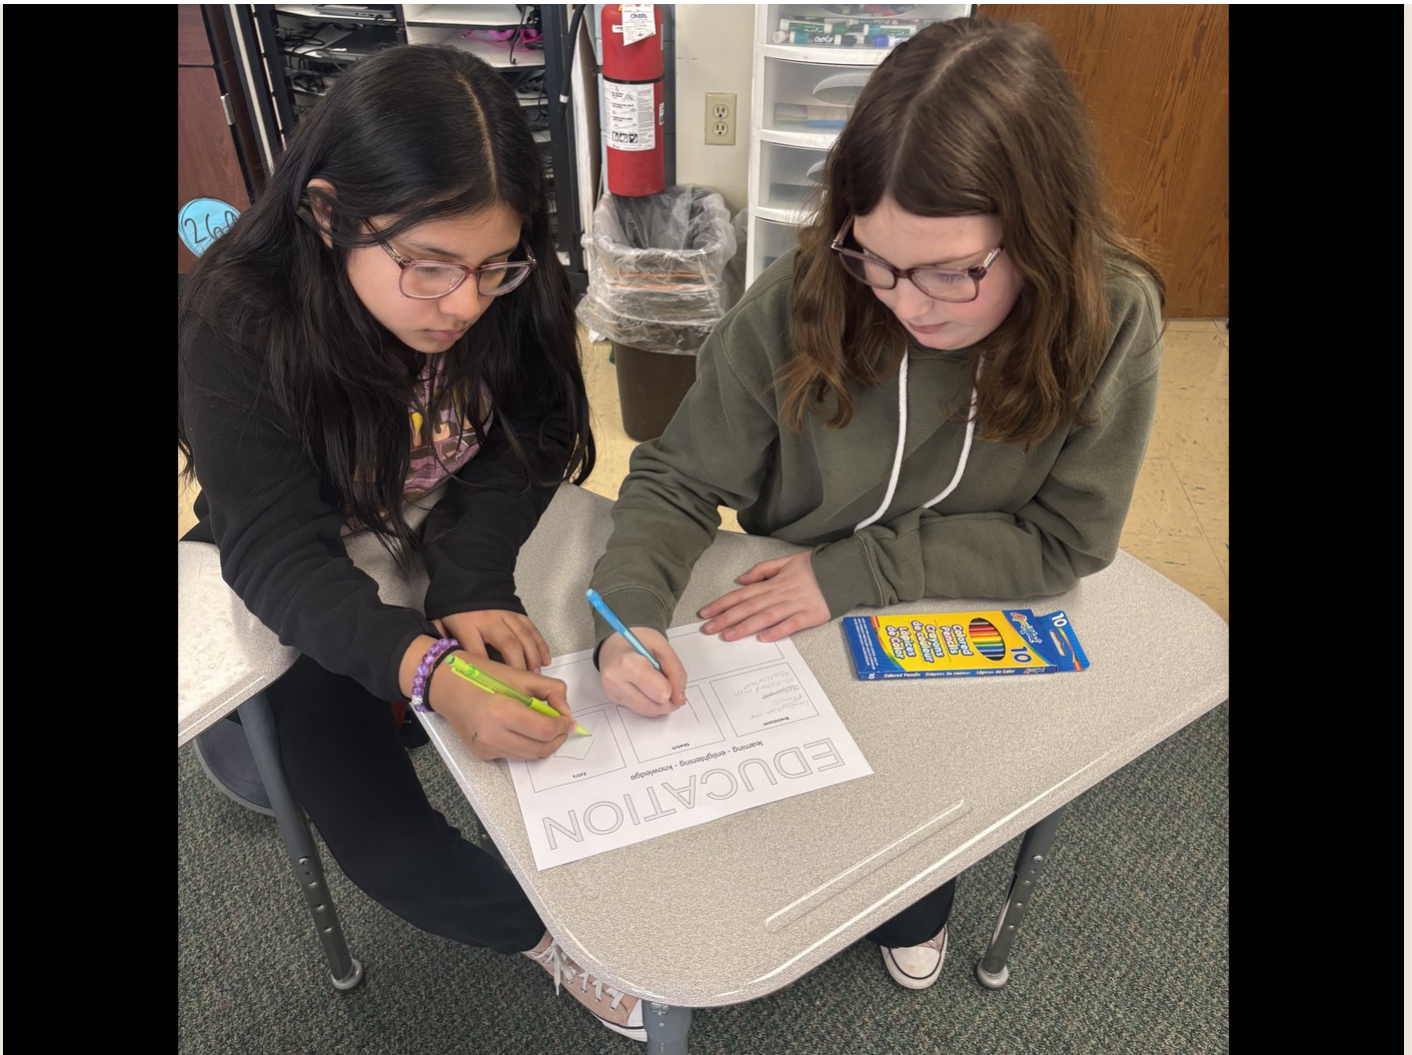

Creating New School Logo

Student council and Mrs. Feldner, a member of our MPQ Leadership team, are working to inspire some ideas for the new logo for Murray Park Elementary to use starting next year. Once we have a few student inspired designs, the school community will vote on which one best represents MP and our core values. Earlier this year, our core values were determined by staff and family input.

5th Grade Choir Trip to Diverse Options

Diverse Options invited the 5th grade choir students to their building to participate in celebrating 50 years of service in this community. They invited the students to participate with their clients as they tie-dyed socks, ate pizza, performed music, and spent time together. Students also helped the staff cut out leaves for a newly painted wall tree and then each added their own leaf describing their time with the clients.
