5610.02 - **IN-SCHOOL DISCIPLINE**

It is the purpose of this policy to provide an alternative to out-of-school suspension. The availability of in-school discipline options is dependent upon the financial ability of the Board of Education to support such a program.

In-school discipline will only be offered at the discretion of the principal for offenses found in the Student Code of Conduct.

No student is to be assigned mandatory detention after the close of the regular school day unless the student's parent has been contacted and informed that the student will be detained. No student shall be refused transportation services until the parent has been notified and other suitable transportation arrangements have been made. Notification to the parent is the responsibility of District personnel and should be made prior to the departure of school buses. If a parent cannot be contacted, the child should be detained on another day.

~~1-1~~ The Superintendent is to establish administrative guidelines for the proper operation of such programs and to ensure that provide for appropriate due-process procedures are to be followed as applicable.
